

Temple Beth Sholom's Member Business Directory is here!

This directory is an opportunity to facilitate our congregants to find professional services as well as stimulate business. Participation in this directory is voluntary. Temple Beth Sholom does not endorse one business over another; rather, we want to build relationships between congregants and to provide our Temple Members a source for business information.

The directory is currently sorted by Member Last Name; however, control + F will highlight a box at the top that will allow you to search the document for any word, i.e. physician.

If you would like to include your business and/or professional services or the company you work for in this directory please email Risa in the Temple office at rbarzilai@tbsoc.com.

Stein	Diane	Stein Life Child Neurology Medical Specialists, Inc.	Medical	Physician - Board Certified Child Neurologist, President of SLCN	3500 Barranca Parkway Suite 315 Irvine, CA 92606 Phone: (949) 743-5678 Cell: (949) 743-5679 mail@steinlifechildneurology.com www.steinlifechildneurology.com	We provide full evaluation and treatment for any neurologic concerns. We see children with epilepsy, behavioral difficulties, learning trouble, headaches, atypical movements, ect. We also provide education, advocacy, support for the patient and the family. We emphasize health and living well, and therefore include dietary counseling and discussion of other non-drug treatments. We have EEG services within the practice. Digitrace is on site offering prolonged EEGs that can be done AT HOME. We also emphasize communication with our families. We wish to improve the family life by offering appointments outside of typical business hours and emailing, telephone appointments, web visits.	Diane is an experienced Board Certified Child Neurologist who has practiced general child neurology in a very busy HMO for over ten years. She there became a regional referral source for complex and intractable epilepsy. She has started SLCN as a departure from HMO medicine with to provide personalized care. Richard Stein PhD is a research and clinical Neuropsychologist with special interest in Therapeutic Lifestyle Choices (including diet) for brain health and behavior. We are also working with a Board Certified Pedtrician and Developmental and Behavioral Pediatrician who is not only excellent at eval and treatment of ADHD, Behavior trouble, Autism, but he is also experienced in working with Diane in the care of children with more than one medical concern. This combination of three such high level experts working together is especially rare and effective.	Living Well Neurology is soon to be our non-profit arm. We are committed to helping make "Every child deserves to live well." more than a motto. We are concerned that many children with epilepsy do not receive treatments that will allow them to live well. SL, a very charming young patient of Diane's, is the inspiration. After working with other neurologists, SL's parents were devastated to learn that many doctors recommended brain surgery to treat her epilepsy. After hours of discussion, they came to fell in control of the treatment options for SL. They decided that brain surgery wasn't a last choice, but in the right hands, it was the BEST CHOICE. SL had her surgery and was better than prior surgery within days. She went from many seizures a day on three seizure medications to completely seizure free. Now, budgets are being cut for the exceptional programs that provide such high level specialized care. We will be working with other groups to advocate for persons with epilepsy and other disabilities and to raise money for the UCLA Pediatric Epilepsy Program.
